GCP for Clinical Data Management

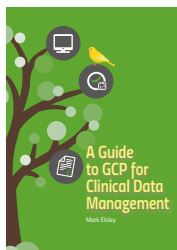

*Can be done on
PCs and mobile
devices*

A Guide to GCP for Clinical Data Management

A brand new book for data management teams.

The book is written by experienced head of data management, Mark Elsley, in conjunction with Professor David Hutchinson.

Can be done on PCs, Macs, iPhones, iPads and android devices

GCP for Clinical Data Management

Online training for data management teams.

The online, on demand training with a quiz and certification is a fun interactive way for data management personnel to learn about their GCP responsibilities.

Content includes ...

- Qualifications, training, SOPs
- Computerized systems
- Data flow and source data quality
- Data collection, quality and management
- Documentation
- Using CROs
- Risk register and risk-based approaches
- GCP checklist of clinical data management

Both the book and online training covers the key ICH GCP E6(R2) requirements relevant to members of the data management team. They also provide valuable practical advice gained from the author's extensive experience in this field.
